PALMER TO MAKE APPEAL TO WOMEN

Washington, Oct. 17.—Attorney General Palmer and his official associates in the fight on the high cost of living, determined today to enlist the aid of the women of America.

By appealing to the comptrollers of household finances throughout the country, it is hoped to inaugurate an epoch of real economy which will offset the "buy now" propaganda of trader people. Furthermore an attempt will be made to discourage the frequent changes in styles dictated by the makers of women's apparel and thereby effect a saving in clothes.

Another important decision taken at today's meeting was to release more surplus supplies held by the government, if it can be done with-

out embarrassment to the departments involved. Secretaries Baker and Daniels and Chairman John Barton Payne of the shipping board were invited to the conference for the first time for that purpose. Mr. Baker being unable to attend, the attorney general and Mr. Daniels will confer with him next week. Mr. Daniels reported that he had sugar enough to run the navy six months, but before he released any of it wanted to be assured of ample replacements.

Indicative of the broad scope which Mr. Palmer's efforts are taking was the request of Chairman Payne to release any surplus building materials which he has on hand, especially lumber needed for home building. The shipping board, it was learned, probably will need, however, all of the supplies which it has purchased.

Need of Cooperation.

Cooperation of the housewives has been the subject of extended conferences between H. E. Figg of the department of justice and Mrs. Edward F. Costigan, who offered the government the full resources of the Consumers' league and the League of Women Voters in the campaign to take the inflation out of prices. As a result, speakers will be put soon in every state to carry the message that one way to beat the profiteers is to ignore propaganda saying that prices are certain to go higher and wait for the decline which officials say is inevitable. These speakers will be armed with facts and figures gathered by the council of national defense in its war work and showing production costs in virtually every industry in the country.

SOUTH CAROLINA MEMORIAL COMMISSION

Columbia, Oct. 17.—Memorial exercises will be held in many parts of the State on Sunday, October 19th, according to reports being received at headquarters in Columbia of the South Carolina Memorial Commission.

In many parts of Orangeburg county services will be held. In the city of Orangeburg Judge Mendel L. Smith will deliver the memorial address. Beginning Monday, October 20, Orangeburg will begin on a concentrated drive for the county's quota of the Memorial Fund. The county has been divided into school districts, the quota divided among these, and in this way community pride will be appealed to in a more direct manner.

In Newberry also memorial services will be held Sunday. The people of that city will assemble at the court house at 4 o'clock in the afternoon.

Calhoun has already held memorial services when the names of the fallen from that county were read and appropriate tribute paid.

The Commission has also been informed that arrangements have been made in Berkeley, Williamsburg and Edgefield counties for holding these services, and in many other counties the chairmen are planning memorial days. Through these services the great privilege that is open to the people of South Carolina to have a personal part in the tribute that will be paid the men from this State who made the sacrifice supreme in the Great War by the erection of a memorial building in Columbia will be brought forcibly to public attention.

There's the same economy in using the one-ton Ford truck that there is in using the Ford car—only the larger carrying power of the truck com-

mends it particularly to farmers, and other business men. The famous Model T motor assures reliable power, and

lots of it; the manganese bronze worm drive makes certain the use of all that power; the three-point suspension gives flexibility, and vanadium steel strength. Price, without body, \$550 f. o. b. Detroit.
